

# Pediatric Communication Therapy Toys

**Toby Tracheasaurus™ Plush Toy** comes with a Shiley tracheostomy tube and Passy-Muir Speaking Valve. Toby provides therapists with a lighthearted introduction to therapy for use with their tracheostomized patients to facilitate vocalization and enhance therapeutic activities. #VT1

**The Tammy and Toby Tracheasaurus™ Coloring Book** is a pre-surgical teaching aide that offers children a fun, educational way to learn about the tracheotomy procedure and to discuss anxieties and concerns the child and family may have. Therapists will find this a delightful tool to introduce patients to tracheostomy placement and for use with those who already have a tracheostomy. #VT3

*Passy-Muir Inc.*

**The Toby Tote™** is an exhalation kit that includes therapy toys designed to assist in teaching a child to exhale orally when using a PMV to promote voicing. Other dino toys can be used in play therapy or as rewards for therapeutic achievements. #VT4
