

FREE web-based self-study courses available on demand at
www.passymuir.com/ceu

To schedule a private, live group webinar, call us at **949.833.8255**

Specialized Webinars covering these topics:

Getting Started

- Application of Passy Muir® Swallowing and Speaking Valves
- Aerodigestive and Respiratory Changes Post Tracheostomy: A Comprehensive Review
- Tracheostomy: Procedures, Timing and Tubes
- Interdisciplinary Tracheostomy Team: Where Do I Start?
- Overcoming Barriers to Speaking Valve Use: Success Through Teamwork
- Passy Muir Valve FAQ Challenge

Ventilator Application

- Ventilator Basics for the Non-Respiratory Therapist
- Ventilator Application of the Passy Muir Valve
- Interdisciplinary Decision Making with Patients Requiring Tracheostomy and Mechanical Ventilation

Swallowing

- Early Intervention for the Ventilated ICU Patient: Use It or Lose It!
- Swallowing Safely: How You Breathe Matters
- Swallow Function: Passy Muir Valve Use for Evaluation & Rehabilitation
- Swallowing Management of the Tracheostomized Adult Patient - Case Presentations

Pediatric

- Pediatric Tracheostomy and Use of the Passy Muir Valve
- Pediatric Ventilator Application of the Passy Muir Valve
- Candidacy for Speaking Valve Use: Journey to Success
- Passy Muir Valve: Keeping It On and Therapeutic Steps to Follow
- Baby Trachs: Passy Muir Valve in the NICU to Optimize Swallowing and Feeding
- Developing a Passy Muir Valve Protocol in the NICU
- Swallowing Management of the Tracheostomized Pediatric Patient - Case Presentations

Special Populations

- Communication and Swallowing Management for ALS Patients with Tracheostomy
- Passy Muir Valve Use with the Head and Neck Cancer Population
- The Role of the Passy Muir Valve in the Pulmonary Management of the Patient with a Spinal Cord Injury
- Early Intervention in Persons with Minimally Conscious State & Tracheostomy

Special Focus

- Home Care Tracheostomy Team: Navigating and Networking
- End of Life Care and Patients Communication in Critical Care Settings
- The Speaking Valve and Diaphragm Pacing: Changing Lives
- Yes You Can! Cardiopulmonary Rehabilitation for the Tracheostomy and Ventilator Patient
- There's More to Life than Breathing

Content Disclosure: These presentations will focus exclusively on the no-leak, bias-closed position speaking and swallowing valve by Passy Muir and will not include information on other similar or related products.
Speakers Disclosure Information: Financial - Speakers received payment from Passy-Muir, Inc. for presentation. Non-Financial - No relevant nonfinancial relationship exists.

To schedule a private, live group webinar, call us at **949.833.8255**

LIVE & Recorded presentations covering these topics:

Getting Started

- Recognizing the Differences: Tracheostomy Tubes and Cuff Types
- Only the Basics: Introduction to Tracheostomy Tubes and No-Leak Speaking Valves
- Trachlore: Misconceptions, Misinformation, and Myths
- Airway Management: It's a Team Sport
- Clinical Round Table: Answering Questions Related to Speaking Valve Use
- Ethics for the Healthcare Practitioner

Non-Ventilator PMV[®] Use

- Application of the Passy Muir Swallowing and Speaking Valve
- Basic Application of the PMV: An Interactive Discussion
- Mechanical Ventilation and In-Line Use: Basic Information from an SLP Perspective

Ventilator Use

- Puzzle-solving: What are the Parts and Pieces to Valve Placement?
- Ventilator Application of the Passy Muir Valve
- Ventilator Application of the No-Leak Valve: An Interactive Discussion

Swallowing

- For SLPs - Assessing and Treating Dysphagia in the Adult Patient with Tracheostomy: Impacting Quality of Life
- For non-SLPs - Dysphagia Basics Following Tracheostomy in the Adult Patient: Considerations for the Non-SLP

Pediatric

- Assessment for Use of the Passy Muir Valve with the Pediatric Population: Non-Ventilator Use
- Pediatric Application of the Passy Muir Valve: Considerations with Mechanical Ventilation

Live In-Person Seminars are offered for CEU credit and hosted by our expert clinical specialists. These seminars offer an interactive, live format that includes mock assessments, case studies with patient videos, hand-on training, group discussion, accommodations for various learning styles, and much more. Participants will learn step-by-step strategies to assess for the use of a no-leak speaking Valve to restore communication, improve swallowing, improve secretion management, and restore subglottic pressure in adults and children who require a tracheostomy. Successful assessment and placement strategies for the use of a no-leak speaking Valve in-line during mechanical ventilation will be demonstrated. CEUs are offered for Respiratory Therapists, Speech-Language Pathologists, and Nurses in the United States. All others will receive a Certificate of Attendance.

For schedule of upcoming seminars, visit www.passymuir.com/seminars
